

EU-ACP Microfinance Framework Programme Site

Who:

European Union-African Caribbean Pacific (EU-ACP) Microfinance Framework Programme: In 2005, the EU-ACP allocated funds to provide grants to microfinance institutions who were developing innovative solutions to getting microfinance to underdeveloped areas in ACP countries.

What:

Editing and content organization

When:

February 2005
January 2008

Highlights:

They asked me to edit the site that would support their original call for proposals in 2005; and provide suggestions for better content organization.

In 2008, they asked me back to edit the site once the Programme was completed. They had findings and reports to publish. Since the Programme was wildly successful, it is being used as a model for future programmes in microfinance.
